### EXAMINER'S AMENDMENT

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 line 9, "said first and second chambers" is changed to --said first and second subchambers--;

Since claim 1 is considered in condition for allowance, the election requirement is withdrawn and claims 14-15 are rejoined and allowed.

2) The following is an examiner's statement of reasons for allowance: None of the references cited either alone or in combination provide a first control device arranged between a first subchamber and a working space and a second control device arranged between a second subchamber and said working space, each of the first and second control devices including a blocking valve for respectively connecting a flow from said first and second subchambers to said working space and a passage valve for respectively connecting a flow from the working space to the first and second subchambers. Toledo, Masuda, and Veitch all teach a housing, a swash plate and first and second pistons, but all lack the teaching of the valves and chambers as recited above.

3) Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
